NOTES: Vacation time is not formally structured. Residents can request vacation time during any rotation. The program director must approve vacation in advance. Residents can earn 20 days of vacation per academic year and must use all of their vacation during the academic year. However, the 20 days of vacation may not be taken all at one time.

The residents have a choice of electives from the following specialties: orthopedics, neurosurgery, general surgery, burns, wounds, surgery, vascular surgery, breast, oncology, urology, emergency medicine, research or transplant surgery. However, no more than 6 months of electives can be in non-surgical specialties.
